Thank you to Thomas Olsson for your feedback. Updated on 2013-12-12 14:53:25 [*] Tag Filed in: Software Actually there is no problem with the setup and installation of this contact manager software, but the most of the users are facing issues after installation. And they have a problem in which they are unable to open this software after finishing its installation. You should always try to use this contact manager software on a fresh system. First delete all the pre installed software and uninstall the competitor software. Then install the required software according to your need and configure it according to your satisfaction. If you face any problem in doing so you can always contact any support software support team. We will try to solve your problem with the help of the support team. And, as far as the installation process is concerned you are facing problems like it is not working at all or it is showing some error like cannot open file, no sound is playing, error while loading etc. Most of the problems occur due to configuration and you have to resolve the same on a fresh system and after that you can install it. You can always contact the software's support team for more information. And, as far as the installation process is concerned you are facing problems like it is not working at all or it is showing some error like cannot open file, no sound is playing, error while loading etc. Most of the problems occur due to configuration and you have to resolve the same on a fresh system and after that you can install it. You can always contact the software's support team for more information. Moved Permanently Filed in: Software Thanks Thanks for the response. So apparently it is not at all a problem with my connection
